Hershey,

This work order will have to be scheduled for next week. We will let you know to cost to physical each container in the warehouse. Please advise if each size needs to be check or this can be a random pull of each container.

Keep in mind, we will need approval from all of you to do this work request. The cost is normally 10.00 to pull each pallets, 5.00 per sampling and 5.00 per photo. For this project we will work with you and make it one charge. Once we know the entire scope of your work request we will quote you.

Best,

Patricia Sellino

Thanks, but look good at the factory info on the box, it is not the same. We are looking for this specific box.

Is it possible to open one box per container to see if it is the same?

Each container is one type of box there are no 2 different boxes in a container, so from all JNS goods we assume there should be one container at least with this box.

Hershey,

This is the best we can do.
